

Changing life experiences for over 12 years!

Rainbow Homes is a Christian non-profit that has been changing the life experience for people with cognitive disAbilities for over twelve years. We recognize cognitive disAbilities as a natural part of the human experience. A disAbility should not diminish the right of an individual to live independently, exert control and choice over their lives, or to fully participate in and contribute to their communities. These individuals should enjoy full integration and inclusion in the spiritual, economic, political, social, cultural, and educational mainstream of our society.

Rainbow Homes program is designed to provide each resident with as much independence as each individual can manage while providing the support they need to attain that independence. Most of the residents have some type of employment, either in the community or in a workshop program. In addition, they are all involved in community activities, i.e., Food Bank, Special Olympics, church activities, sports.

We also offer a Respite Care Program supporting families' capacity to maintain family members at home and in the community. Our program provides short-term, periodic respite care to individuals with cognitive or functional disAbilities, in order to provide a period of rest and renewal to family caregivers and a place to connect with community to the respite client.

Benefiting Christian supported living for adults with cognitive disAbilities
